

FOR IMMEDIATE RELEASE

CAREGIVERS BY WHOLECARE PARTNERS WITH ELECTRONIC CAREGIVER™ TO BRING VIRTUAL CAREGIVING TO FAMILIES

Home Health Company is First Master Care Partner in Middle Tennessee

NASHVILLE, Tenn. – July 3, 2019 – [Caregivers by WholeCare](#), a non-medical home health company offering continuum of care services, announces today it has partnered with Electronic Caregiver™ to offer affordable care technologies to families in Middle Tennessee. Caregivers by WholeCare is the first home health company in the region to be a master care partner of Electronic Caregiver™ solutions, a monitored technology provider headquartered in Las Cruces, New Mexico. Through Electronic Caregiver™, WholeCare will provide its clients with home care monitoring services, physician on demand, activity detection, medication management and caregiving support tools.

“Our partnership with Electronic Caregiver™ is an affordable complement to our current caregiving services and fills the gap to meet the growing needs of our clients,” says Elizabeth Moss, founder and chief care officer, Caregivers by WholeCare. “This advanced technology extends client independence for much longer to improve overall health and quality of life.”

WholeCare offers the following Electronic Caregiver™ services on a subscription basis for clients starting at \$59 per month:

- **pocketMD™** includes a water-resistant wrist pendant, 24/7 physician on-demand to assess and respond to common ailments and send a prescription to a pharmacy.

- **FamilyCare App** sends and receives important notifications and monitors a client's vitals.
- **Rapid Response Monitoring** provides 24/7 protective services with a stay-on-the-line feature during emergencies and certified emergency medical dispatchers.

Electronic Caregiver™ recently announced its voice-activated and tablet-based virtual caregiving system, Addison Care, that monitors vitals, detects fall risk, provides comprehensive interactive support for rehab, medication management and nutrition support. Addison Care is expected to be available for consumers later this summer.
